

## INTISARI

### HUBUNGAN TINGKAT PENGETAHUAN DAN PERAN BIDAN DENGAN PENCAPAIAN MDGS GOAL 5 DI PUSKESMAS SE-WILAYAH DISTRIK WURYANTORO, KABUPATEN WONOGIRI

Ihsan Lailatul Romadlon<sup>1</sup>, Indah Dewi Ridawati<sup>2</sup>, Anik Suwarni<sup>3</sup>

**Latarbelakang:** Target pencapaian *Millennium Development Goals* (MDGs) ke 5 (lima) menjadi prioritas utama pembangunan kesehatan di Indonesia. Angka kematian ibu (AKI) menjadi salah satu indikator penting dalam menentukan derajat kesehatan masyarakat.

**Tujuan penelitian:** hubungan tingkat pengetahuan dan peran bidan terhadap pencapaian MDGs goal 5 di Puskesmas Se-wilayah Distrik Wuryantoro, Wonogiri.

**Desain penelitian:** ini dengan kuantitatif korelasi dengan pendekatan *cross sectional*. Populasi penelitian ini adalah semua bidan di Puskesmas Se-wonogiri Distrik Wuryantoro, Wonogiri sebanyak 63 bidan. Teknik pengambilan sampel yang digunakan adalah *purposive sampling* dengan jumlah sampel 60 responden. Variabel bebas penelitian ini adalah pengetahuan bidan dan peran bidan, sedangkan variabel terikatnya adalah pencapaian MDGs 5. Analisa data yang digunakan adalah *Spearman rank dan regresi linier* dengan  $\alpha = (0,05)$ .

**Hasil analisis:** Analisis *spearman rho* nilai korelasi pengetahuan dan pencapaian MDGs (0,454) dan nilai signifikasn (0,000). Hasil analisis *spearman rho* nilai korelasi peran bidan dan pencapaian MDGs (0,418) dan nilai signifikasn (0,001). Hasil *regresi linier* menunjukkan bahwa nilai F 11,370 dan nilai koefisien determinasi ( $R^2$ ) = 0,285 artinya sebesar 28,5% variabel pengetahuan bidan dan peran bidan berpengaruh terhadap pencapaian MDGs 5, sedangkan sisanya sebesar 71,5% diterangkan oleh variabel lain di luar variabel penelitian ini.

**Kesimpulan:** Ada hubungan antara pengetahuan bidan dan peran bidan berpengaruh terhadap pencapaian MDGs 5 di Puskesmas Se-wilayah Distrik Wuryantoro, Wonogiri.

Kata kunci: Pengetahuan bidan, Peran bidan, Pencapaian MDGs Goal 5

## ABSTRACT

### CORRELATION OF THE SKILL GRADE AND THE ROLE OF MIDWIFE TOWARD THE ACHIEVEMENT OF MDGS GOAL 5 AT ALL THE HEALTH CENTER ( PUSKESMAS ) AT WURYANTORO DISTRICT IN WONOGIRI REGENCY

Ihsan Lailatul Romadlon<sup>1</sup>, Indah Dewi Ridawati<sup>2</sup>, Anik Suwarni<sup>3</sup>

**Background :** *The Target of the fifth MDGs is the main priority to develop sanitary in Indonesia. The number of moternal mortality ( AKI ) is a significant indicator in determining the grade of people health.*

**Object of Study :** *Correlation of the skill grade and the role of midwfe toward the achievement of MDGs Goal 5 at All the Health center ( Puskesmas ) at Wuryantoro District in Wonogiri Regency*

**Research Design :** *This Research uses Quantitative correlation by using cross sectional approach. The population are 63 ( sixty three ) midwives in health center ( Puskesmas) in Wonogiri regency especially in Wuryantoro District. The sampel techniques which is taken is Purposive sampling with 60 respondents. The Independent variable in this researchs are the skill and the role of midwife. The Dependent variable is the achieve of MDGs at level 5. The data analysis which are used are spearman rank and linier regression with  $\alpha = (0,05)$ .*

**Result of Analysis :** *spearman rho analysis . the value of correlation the skill and achievement MDGs ( 0,454 ) and significant value ( 0,000 ). The analysis result of spearman rho. The value of correlation of the midwife's role and the achievment of MDGs ( 0,418 ), significant value (0,001) . the result of Linier Regression shows that  $F : 11,370$  and Coefficient Determination ( $R^2$ ) = 0,285. It is mean that 28,5 % the skill of midwife variable and the role of midwife has an influence toward achievement MDGs 5 , and the other are 71,5 % will be explained other variable outside of this research.*

**Conclusion :** *There are Correlation of the skill grade and the role of midwfe toward the achievement of MDGs Goal 5 at All the Health center ( Puskesmas ) at Wuryantoro District in Wonogiri Regency*

**Keyword :** *the role of midwife, midwife's skill , achievement of MDGs 5*
