HUBUNGAN ANTARA PAPARAN MENONTON TAYANGAN KRIMINAL DAN KONSEP DIRI PADA AGRESIFITAS REMAJA DI SMA NEGERI COLOMADU KARANGANYAR

Muggi Rahayu¹, Fitri Budi Astuti², Anniez Rachmawati³

Latar Belakang: Masa remaja merupakan transisi antara anak-anak dan dewasa yang berisiko terhadap berbagai masalah kesehatan termasuk kenakalan remaja. Di Indonesia menunjukkan angka peningkatan kasus agresivitas pada remaja. Tercatat selama 2014 terdapat 788 ribu kasus kekerasan terhadap remaja. Sepanjang kwartal pertama 2015 terdapat 226 kasus kekerasan terhadap anak di sekolah. Faktor-faktor perilaku agresif pada remaja berupa penyebab sosial, lingkungan, situasional, alcohol dan obat-obatan serta konsep diri.

Tujuan: Untuk mengetahui hubungan paparan menonton tayangan kriminal dan konsep diri pada agresifitas remaja di SMA Negeri Colomadu Karanganyar.

Metode: Penelitian ini merupakan *observational analytic description* dengan pendekatan *cross sectional*. Populasi penelitian adalah seluruh seluruh siswa SMA Negeri I Colomadu Karanganyar tahun ajaran 2017/2018 yang berjumlah 904 siswa. Sampel penelitian sebanyak 278 siswa, dan penentuan sampel dalam penelitian menggunakan teknik *proporsional random sampling*. Pengumpulan data menggunakan kuesioner Pengujian hipotesis penelitian menggunakan uji korelasi *Rank Spearman*.

Hasil Penelitian: Hasil uji korelasi *rank spearman* variabel paparan menonton tayangan kriminal dengan agresifitas remaja diperoleh nilai r_{hitung} sebesar 0,564 dan signifikansi 0,000, sedangkan variabel konsep diri dengan agresifitas remaja diperoleh nilai r_{hitung} sebesar 0,218 dan signifikansi 0,000.

Simpulan: terdapat hubungan antara paparan menonton tayangan kriminal dan konsep diri pada agresifitas remaja di SMA Negeri Colomadu Karanganyar.

Kata Kunci : paparan menonton tayangan kriminal, konsep diri, agresifitas, remaja

ABSTRACT

RELATIONSHIP BETWEEN EXPOSURE TO WATCH CRIME SHOW WITH CRIMINAL CHARACTERISTICS AND SELF CONCEPT IN TEENS AGGRESSIVENESS IN SENIOR HIGH SCHOOL OF COLOMADU KARANGANYAR

Muggi Rahayu¹, Fitri Budi Astuti², Anniez Rachmawati³

Background: Adolescence is a transition between children and adults at risk for various health problems including juvenile delinquency. In Indonesia shows an increase in cases of aggressiveness in adolescents. Recorded during 2014 there were 788 thousand cases of violence against adolescents. During the first quarter of 2015 there were 226 cases of child abuse at school. Aggressive behavioral factors in adolescents include social, environmental, situational, alcohol and drug and self-concept.

Objective: To know the relationship of exposure to watch the show of crime and self concept on aggressiveness of adolescent in high school of Colomadu Karanganyar.

Method: This research is an observational analytic description with cross sectional approach. The research population is all the students of high school of Colomadu Karanganyar academic year 2017/2018 which amounts to 904 students. The sample of the research were 278 students, and the sample determination in the research using proportional random sampling technique. Data collection using questionnaires Testing research hypothesis using Rank Spearman correlation test.

Results: The result of spearman rank correlation test of exposure variable to watch crime show with teen aggressiveness obtained r_{obs} value 0,564 and significance 0,000, while self concept variable with teen aggressiveness obtained r_{obs} value 0,218 and significance 0,000.

Conclusion: there was relationship exposure to watch crime show and self concept on teen aggression in senior high school of Colomadu Karanganyar.

Keywords: exposure to watch crime show, self concept, aggression, teenager
