

## INTISARI

### HUBUNGAN PENGETAHUAN IBU TENTANG STIMULUS MOTORIK HALUS DENGAN PERKEMBANGAN MOTORIK HALUS ANAK PRA SEKOLAH DI TK MERPATI POS KECAMATAN LAWEYAN

Yennie<sup>1</sup>, Atik Aryani<sup>2</sup>, Shinta Rositasari<sup>3</sup>

**Latar Belakang:** Kurangnya stimulasi dapat menyebabkan penyimpangan tumbuh kembang anak seperti gangguan berbicara, bahasa dan gangguan pada motorik halus bahkan gangguan perkembangan yang menetap. Salah satu faktor yang mempengaruhi perkembangan motorik halus anak pra sekolah adalah pengetahuan ibu tentang stimulus motorik halus.

**Tujuan:** Mengetahui hubungan pengetahuan ibu tentang stimulus motorik halus dengan perkembangan motorik halus anak prasekolah di Tk Merpati Pos Kecamatan Laweyan.

**Metode Penelitian:** Jenis penelitian deskriptif analitik dengan rancangan *cross sectional*. Populasi dalam penelitian ini seluruh ibu yang mempunyai anak prasekolah di Tk Merpati Pos Kecamatan Laweyan sebanyak 30 orang dengan teknik *total sampling*. Alat analisis univariat dan analisis bivariat dengan menggunakan uji *Chi-square* ( $t^2$ ).

**Hasil:** (1) Mayoritas pengetahuan ibu dalam perkembangan motorik anak usia prasekolah tergolong baik sebanyak 18 orang (60,0%); (2) Mayoritas perkembangan motorik anak usia prasekolah di Tk Merpati Pos Kecamatan Laweyan Kota Surakarta tergolong sesuai sebanyak 18 orang (60,0); (3) Ada hubungan signifikan antara pengetahuan ibu tentang stimulus motorik halus dengan perkembangan motorik halus anak usia prasekolah di Taman Kanak-Kanak (TK) Merpati Pos Kecamatan Laweyan ( $t^2_{hit} = 5,981; p = 0,013$ ).

**Kesimpulan:** Ada hubungan signifikan antara pengetahuan ibu tentang stimulasi motorik halus anak prasekolah di Tk Merpati Pos Kecamatan Laweyan.

**Kata Kunci:** Pengetahuan, Stimulasi Motorik Halus, Anak Prasekolah.

## ABSTRACT

### **CORELATION BETWEEN MOTHER'S KNOWLEDGE ON FINE MOTOR DEVELOPMENTS OF PRE-SCHOOL CHILDREN IN KINDERGARTEN (TK) MERPATI POS, DISTRICT LAWEYAN**

Yennie<sup>1</sup>, Atik Aryani<sup>2</sup>, Shinta Rositasari<sup>3</sup>

**Background:** Lack of stimulation can cause child growth disorders such as speech, language disorder and fine motor disruption and even persistent developmental disorders. One the factor affect fine motor development is mother knowledge about stimulation fine motor development of pre-school children in kindergarten (TK) Merpati Pos, Kecamatan Laweyan.

**Purpose:** Purpose of the research is to relationship of mother knowledge on fine motor stimulation of children with fine motor development of children kindergarten (TK)Merpati Pos, Kecamatan Laweyan.

**Research Methods:** Descriptive analytic study with cross sectional design. Entire population in this study mother's with pre-school children in kindergarten (TK) Merpati Pos many 30 people with techniquen total sampling. Univariate analysis tool and analysis bivariate by using chi-square ( $\chi^2$ ).

**Results:** (1) The majority mother's in the knowledge of fine motoric development of pre-school childer are slassified as good by 18 people (60,0%). (2) The majority of the motoric development of pre-school children in kindergarten (TK) Merpati Pos, Kecamatan Laweyan, classified in accordance many 18 people (60,0%). (3) A significant correlation between mother knowledge about motor stimulation pre-school kindergarten (TK)Merpati Pos, Kecamatan Laweyan ( $t^2_{hit} = 5,981$ ;  $p = 0,013$ ).

**Conclusion:** There was a significant association between mother's knowledge about fine motor stimulation whit fine motor development of pre-school children in kindergarten (TK) Merpati Pos, Kecamatan Laweyan.

**Key Words:** Knowlegde, fine motor stimulation, pre-school children.
