## ABSTRACT

The development of basketball in Indonesia has a currently quite high increase along with the development of technology media. One of the basketball schools in Indonesia, especially in the district of Sragen is Bison Patriot Indonesia. The design of the Bison Patriot Indonesia Video Company Profile is needed since there is no Video Company Profile that represents the Basketball School as a new promotional media. Therefore, identity is required in accordance with the vision and mission of the Bison Patriot Indonesia among the competition of basketball. Besides, it is also to maintain the existence of basketball school. The concept is based on a feasibility study of aesthetic, effective, creative, and communicative according to the target audience of the basketball school so it produces a traditional modern visual concept.
